

Wendy Gahms Art Class

Mosaic Frames

Students in Mr. Wedge's class have been working on mosaic picture frames in art class. Each student chose the color of the tiles that they wanted to use. Students then glued the tiles down to a wooden frame. Finally, the frames were grouted. The students did a fantastic job on their artwork.

Surreal Shoe Paintings

Students in Mrs. Wynne's class learned how to draw a contour line drawing of their shoe during art class. Each student had to take off one shoe, place it on the table, and draw the contours of the shoe. Next students were encouraged to use their imaginations and change the shoe into something else. Some shoes became cars; some even became rocket ships! Students also added background. The shoe was colored with cool colors, and the background was painted with warm colors.
