Class Name	Grade Level	Dates	Times	Cost	Details	Description
Medical Detectives: What Makes You, YOU? Instructor: Mary Newman	Incoming 6-8th graders	June 15th	12-2pm	\$10	Max class size is 16. Rm 601 at MSS	Have you ever wondered what your own DNA or maybe your fingerprints look like? During this class you will explore both those topics. We will do a hands-on experiment involving your DNA and Gatorade! You will take home your DNA in your very own test tube, and a copy of your fingerprints too!
Medical Detective: I'm All Heart Instructor: Mary Newman	Incoming 6-8th graders	June 20th	12-2pm	\$10	Max class size is 16. Rm 601 at MSS	Come learn about one of the strongest muscles in your body, the heart. Learn how our circulatory system works in concert with the heart and lungs to bring oxygen and nutrients to every cell in your body. You will dissect a sheep's heart to gain firsthand knowledge about those four hard-working valves and chambers of the heart. All necessary PPR will be provided.
Medical Detective: How about those Human Senses? Instructor: Mary Newman	Incoming 6-8th graders	June 22nd	12-2pm	\$10	Max class size is 16. Rm 601 at MSS	Come learn about your five senses: hearing, sight, touch, taste, and smell. We will explore each one through a series of hands-on experiments to help you better understand your senses and how they relay information to the brain.
Programming Outdoor Fun, A LEGO SPIKE Essential Camp Instructor: Wendy Brandal	Incoming 2-3rd graders	July 17-20 & July 24-27	9am-12pm	\$80	Max class size is 24.	This Lego SPIKE Essential camp provides students with STEAM-focused, hands-on activities that include computational thinking, introductory programming, math, and language arts. Each day, students will work on teambuilding and Lego building challenges. They will develop skills and knowledge to complete the culminating project of designing and programming outdoor fun on an amusement park ride.
