

Time for Two's

Time for Twos is a program that is designed for a parent to attend a planned play group with their 2-year old. Each week a parent and child participate in forming new friendships, playing games, making simple crafts, story time, and singing songs.

Parents will leave each class with handouts of simple and inexpensive ideas that can be done with their child at home. Simple activities that promote early math skills, fun and easy literacy activities, parenting tips, creative art projects and fun and simple snack recipes.

Children will leave each class with a book of their very own to keep and read over and over and over again with you at home.
