National Honor Society is partnering with the Detroit Zoo in collecting used cell phones. A drop box is located in N126 until Friday, April 17th. Coltan is a mineral used to manufacture cell phones and is mined by hand in the Democratic Republic of Congo. This is the natural habitat for endangered gorillas. The deforestation and mining associated with coltan production has impacted and displaced gorillas, moving them closer to extinction. Recycling and extending the life of electronic devices reduces the demand for coltan mining. Please join us in helping endangered gorillas by recycling your old cell phones.

Attention Juniors – We are offering a FREE practice SAT test on Saturday, March 21st from 8:00 a.m. to Noon. Sign-up in the Counseling Office by Tuesday, March 17th.

Test-Out request forms for next Fall, 1st semester 2020, are now available in the Counseling Office.
