

Naldrett Elementary

Star Council 2023-2024

School Mission:

Naldrett staff, in partnership with parents and community, will provide a nurturing learning environment in which students can achieve their full potential.

MISSION of the STAR COUNCIL Parent Advisory Group:

The mission of the Naldrett Elementary Star Council is to support the education of children at Naldrett Elementary by fostering relationships among the school, parents, and teachers. The Star Council will help provide our students with experiences that will enhance their learning and improve their quality of life. We believe in a close working relationship between home and school, where parents and teachers work together to provide our students with the best possible educational experience. All parents are welcome to join us for our meetings and participate in school events. The star council is a committee-based volunteer group. It is designed to increase parent or guardian participation. Volunteering time in planning, organizing and helping with an event is a team approach with a more flexible, interest-based sign-up to work on a committee.

As a member of Star Council it is imperative that we value everyone's well-being and work towards our mission. All members must have the ability to get along with others, communicate, and be willing to collaborate. Our motto is **STUDENTS FIRST** and **ACADEMIC EXCELLENCE TOGETHER**. We will be respectful to others at all times, listen to opposing views and be willing to compromise. Any conduct detrimental to the interests of the school or in any such way that compromises the mission and vision will be addressed by the principal that their position or services as part of Star Council may no longer be necessary. The principal shall be considered an acting Director at all times and shall hold an advisory capacity upon the committee chairs.

The council members are our school's number-one supporters. We must stay true to our focus and our mission by following district protocols and our code of conduct. The focus of the group should encourage parents and teachers to be involved. All members should promote what Naldrett stands for as well as be role models for our students.

Star council members and teachers look for opportunities to take on leadership roles in developing and implementing school, district and state initiatives. We are all role models for our students. All members should play a professional role towards adults and students. Conduct amongst all members will be friendly, ethical and professional to all stakeholders while providing the support for all students.
